**APPENDIX C**

**SCHEDULE 2**

**RECORD OF MONUMENTS AND PLACES**

## RECORD OF MONUMENTS AND PLACES

The Record of Monuments and Places (RMP) is a statutory list of all known archaeological monuments in Dún Loaghaire-Rathdown County. The RMP consists of a published set of Ordnance Survey maps on which monuments are marked by a circle. It should be borne in mind that the circle does not necessarily define the extent of the site or monument. The National Monuments Service of the Department of the Environment, Heritage and Local Government keeps records of all known monuments and sites.

### Registered Monuments

The Register of Historic Monuments was established under the National Monuments (Amendment) Act, 1987. Monuments entered in the Register are termed Registered Monuments. Registered Monuments are shown as (R) in Schedule 2.

### National Monuments

National Monuments in State guardianship or ownership have a notice on the site, which states that the monument is a National Monument and is protected under the National Monuments Acts.

For National Monuments in the ownership or guardianship of the Minister or a local authority or which are subject to a preservation order the prior consent of the Minister is required for any interference with the monument.

There are certain circumstances involving danger to a monument the Minister may by order undertake the preservation of the monument. The effect of the Preservation Orders is to make it unlawful to interfere in any way with the monument without the written consent of the Minister.

National Monuments are shown in Schedule 2 as being in state ownership (O), or guardianship (G). Those monuments which are the subject of a Preservation Order are marked with (P).

### Note:

A number of structures included in Schedule 2, are also defined as Protected Structures. These structures are protected under the National Monuments Acts and the Planning Acts. The qualities of archaeological and architectural interest are not mutually exclusive and certain structures can have both qualities and be protected by both Acts.

### Note:

All updated data included in Schedule 2 has been provided by The National Monuments Service, Department of the Environment, Heritage and Local Government, September 2009.

It must be emphasised that the RMP is not a final list of archaeological sites and monuments for Dún Loaghaire-Rathdown. The existence of a wide range of as yet unidentified archaeological sites and monuments must also be taken into account. It is advisable to check the Archaeological Survey of Ireland Sites and Monument's Database [www.archaeology.ie](http://www.archaeology.ie) for the most up-to-date information.

**Note:**

All RMP's are depicted on the County Development Maps. When locating an RMP, it should be noted that only the first three digits after the dash will be shown on the map i.e. DU023-14001, DU023-14002 and DU023-14003 will be shown as 023-014. All of the monuments therefore will be contained within the circle denoted.

The precise location and co-ordinates for each RMP can be found on the Archaeological Survey of Ireland Sites and Monument's Database [www.archaeology.ie](http://www.archaeology.ie).

### **Wind Energy Strategy**

## Wind Energy Strategy

### Introduction

At present, most of Ireland and the world's energy needs are met by fossil fuels; oil, coal and natural gas. Reserves of these fuels are finite, and the present trend of increasing fossil fuel consumption is unsustainable. The emission of greenhouse gases caused by fossil fuel combustion contributes to climate change. The development of wind energy resources, replacing the need for conventional power plants can help to conserve limited fossil fuel reserves, reduce environmental damage and slow the rate of climate change.

It is acknowledged that Ireland has a wind resource that is among the richest in Europe. This is mainly concentrated in the mountainous and coastal areas where landscape quality and environmental designations can often be of considerable significance. This, in many cases, leads to significant land use planning conflicts, which require careful resolution.

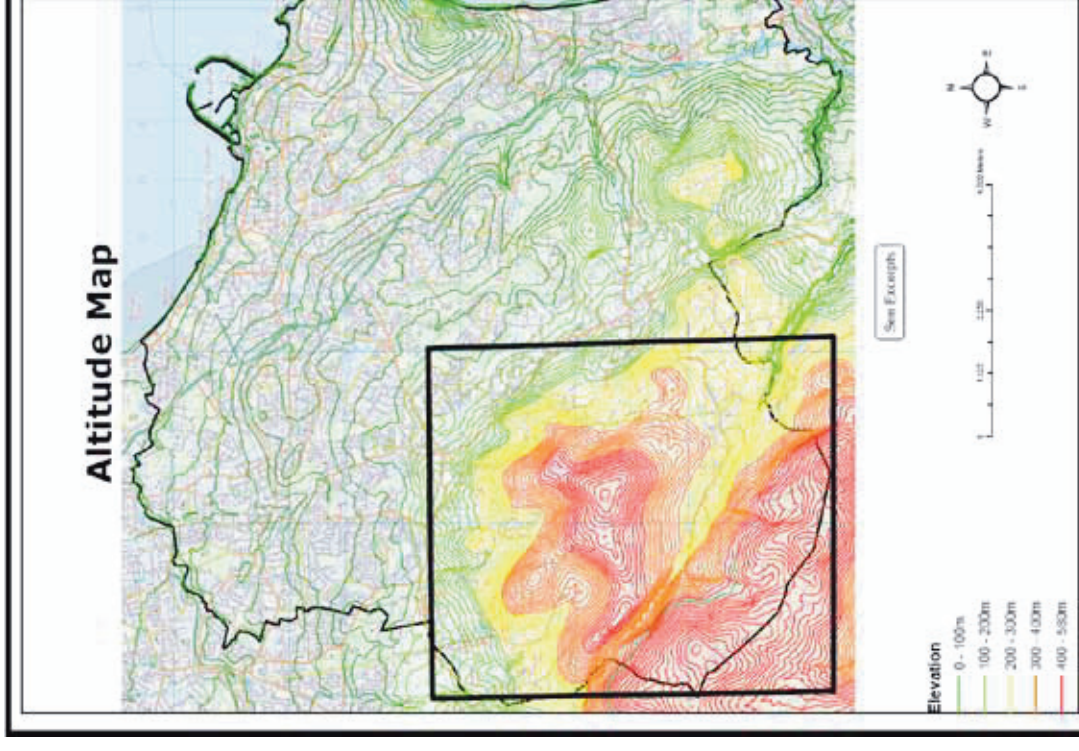

Dún Laoghaire-Rathdown County Council recognises the need to reduce dependence on fossil fuels for energy generation, and supports the development of renewable resources.

### 1.1 County Description

The County is framed by its coastal and upland landscapes and the range of landscape character areas between the mountains and the sea testify to the variety of those landscapes in what is the smallest administrative County in Ireland. The coast and the Dublin Mountains are both significant to the identity of the County.

The 17km coastline of Dún Laoghaire-Rathdown is diverse varying from rocky headlands with a variety of inlets, long established harbours and high quality beaches. The Dublin Mountains form a distinct south-western edge to the Dublin conurbation, acting as an accessible resource for both active and passive recreational pursuits.

The Dublin Mountains to the southwest of the County rise in excess of 500m in some places - the peaks of Two Rock, Glendoo and Glencullen Mountains. In terms of wind speed intensity, these locations offer the most obvious potential for wind energy generation in the County.

## 1.2 Policy Context

### 1.2.1 National

Development of alternative energy sources is a priority at National and European level for both environmental and energy policy reasons. The context in Ireland is set by Government policies for the provision of electricity from renewable and indigenous sources in line with official European and United Nations targets for reducing dependency on fossil fuels and emission of greenhouse gases.

The 'Wind Energy Development Guidelines' issued by the Department of the Environment, Heritage and Local Government in 2006 aim to offer advice to Planning Authorities on planning for wind energy through the Development Plan process and in determining applications for planning permission. They also provide a sample methodology for the identification of suitable locations for wind energy development within their boundaries and the treatment of planning applications for wind energy development proposals. The Guidelines are also to be used as a useful guide for developers and the wider public when considering wind energy developments.

### 1.2.2 County Level General

The Council recognises the importance of wind energy, as per Policy G3 & G4, in fulfilment of its overall policy to support the National Climate Change Strategy (Policy G1). These policies state:

#### **Policy G3: Renewable Energy**

*It is Council policy to recognise the importance of wind energy – both on-shore and offshore, when carried out in an environmentally acceptable manner.*

#### **Policy G4: Wind Energy**

*To encourage relatively small-scale wind energy developments within urban and industrial areas, and for small community-based proposals provided they do not negatively impact upon the environmental quality or residential amenity of the area.*

The aspirations for renewable energy must be balanced with the requirements to preserve natural resources throughout the County as amenity assets as set out in the County Development Plan as follows:

#### **(I) Recreation and Amenity Policies**

##### **Policy LHB2: High Amenity Zones**

*It is Council policy to conserve and enhance existing High Amenity zones and to seek to manage these and other areas to absorb further recreational uses and activity without damaging the amenities that affords them their special character.*

##### **Policy LHB5: Heritage and Protection of the Environment**

*It is Council policy to protect and conserve the environment including, in particular, the architectural, archaeological and natural heritage of the County and to conserve, manage and protect nationally important and EU designated sites including Special Protection Areas, Proposed Candidate Special Areas of Conservation and Proposed Natural Heritage Areas.*

##### **Policy LHB8: Special Protection Area (Birds), Proposed Natural Heritage Areas and Candidate Special Areas of Conservation**

*It is Council policy to protect and preserve areas designated as Proposed Natural Heritage Areas, proposed Candidate Special Areas of Conservation, and Special Protection Areas (Birds)*

##### **Policy LHB9: Non-Designated Areas of Biodiversity Importance**

*It is Council policy to protect and promote the conservation of Biodiversity in areas of natural heritage importance outside designated areas. In implementing this policy regard shall be had to the recommendations and objectives of the Green City Guidelines (2008).*

##### **Policy LHB23: Dublin Mountains Strategic Plan**

*It is Council policy to support the vision and objectives of Dublin Mountains Strategic Plan for Development of Outdoor Recreation (2007-2017) including the formation of a Dublin Mountain Way.*

##### **Policy LHB24: Public Rights of Way**

*It is Council policy to:*

- *Preserve for the common good all existing public rights of way which contribute to general amenity.*
- *Create new rights of way or extend or enhance existing rights of way in the interest of amenity.*

**Policy LHB25: Recreation Access Routes**

*It is Council policy to preserve all Recreation Access Routes which contribute to general amenity.*

**Policy LHB26: National Park**

*It is the policy of the Council to cooperate in the establishment of a Wicklow Mountains National Park.*

**Policy LHB27: Trails, Hiking and Walking Routes**

*It is Council policy to promote the development of regional and local networks of hiking and walking routes and trails.*

**(ii) Policy on Landscape:****Policy LHB1: Preservation of Landscape Character Areas**

*It is Council policy to continue preserve and enhance the character of the County's landscape in accordance with the recommended strategies as originally outlined in the Landscape Character Assessment (May 2002) and in accordance with the "Draft Guidelines for Landscape and Landscape Assessment" (2000) as issued by the Department of Environment and Local Government.*

**Policy LHB3: Historic Landscape Character Areas**

*In assessing development proposals it is the policy of the Council to have regard to the recommendations and findings of the Historic Landscape Character Assessments (HLCA) undertaken for the urban rural-fringe areas of the County*

**Policy LHB4: Views and Prospects**

*It is Council policy to protect and encourage enjoyment of views and prospects of special amenity value or special interests.*

**Policy LHB14: Geological Sites**

*It is Council policy to protect Geological, Natural Heritage Areas (NHAs) and County Geological Sites (CGS) that become designated during the lifetime of this Plan*

**(iii) Policy on Built Heritage****Policy AH1: Protection of Archaeological Heritage**

*It is Council policy to protect archaeological sites, National Monuments (and their setting), which have been identified in the Record of Monuments and Places (RMP), whilst at the same time reviewing and assessing the feasibility of improving public accessibility to sites and monuments under the direct ownership or control of the Council.*

**Policy AH8: Industrial Heritage**

*It is Council policy to promote the marketing and interpretation of industrial heritage sites and to encourage public awareness and appreciation of this heritage with a view to optimising its tourism potential.*

**Policy AR 1: Protection of the Architectural Heritage**

*It is Council policy to compile and maintain a Record of Protected Structures and will include in the Record every structure or parts of such structures which, in the Planning Authority's opinion, are of special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest. The Council will ensure that interventions to Protected Structures shall have regard to the Department of Environment, Heritage and Local Government document "Architectural Heritage Protection Guidelines for Planning Authorities" (2004)*

**Policy AR 5: Protection of Coastline Heritage**

*It is Council policy to promote the retention of features of the County's coastal heritage where these contribute to the character of the area.*

## 1.3 Analysis of Suitable Areas for Wind Energy

### 1.3.1 Methodology

The methodology adopted for this study is largely derived from the 'Wind Energy Planning Guidelines' issued by the Department of the Environment, Heritage and Local Government in 2006.

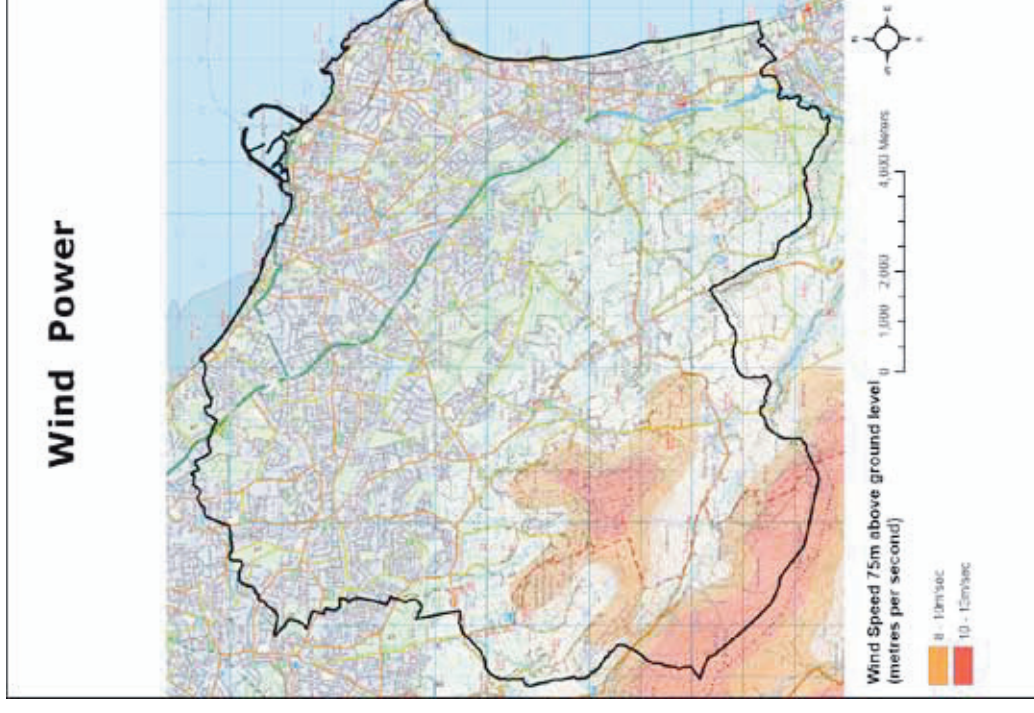

### 1.3.2 Wind Potential

An evaluation of the wind resource for Dún Laoghaire-Rathdown County is presented in mapped figures as part of this report. The data, abstracted from the Wind Atlas 2003 prepared by Sustainable Energy Ireland (SEI) illustrates the 'constrained wind resource' for the county at 75m above ground level. The SEI provides data on wind speeds at 50m, 75m and 100m above ground level, to provide an indication of present and future potential. The decision to use the 75m wind speed potential for the analysis is on the basis it represents the median wind speed potential and that the relative difference between the 75m and 100m potential is marginal. The 'constrained wind speed' is presented on a County Map (see map 2). The areas in which the wind speeds are sufficient for harnessing of wind energy encompass those areas with an average wind speed in excess of 8 metres per second, and will be referred to as the 'Area of Potential' in this report.

As can be seen in Map 2, the areas of highest wind speed intensity are in the southwest quadrant of the County, focussed on the peaks of Two Rock, Glendoo and Glencullen Mountain. The remainder of the County has generally low average wind speeds, from 3-7 metres per second and would not be considered viable for commercial wind energy production.

It is intended to focus on the assessment of the 'Area of Potential' for wind energy and to balance the potential of the area for wind energy generation with potential impacts on the natural and built heritage – focusing cumulatively on:

- Areas of environmental designation
- Landscape Character Area
- Archaeological Heritage
- Architectural Heritage
- Protected Views and Prospects
- Residential Amenity
