

Dún Laoghaire

Twin piers arc serenely into Dublin Bay as boats bob within the protective arms of the harbour they form. Along the shoreline, striking modern architecture compliments terraces of elegant Victorian townhouses, the harmony of old and new. Dún Laoghaire is coastal cosmopolitanism, yet you can sense the fishing village at the heart of this historic town.

Take a stroll or a cycle along the seafront – try kayaking or paddle boarding if you're feeling adventurous. There is the National Maritime Museum, theatres, galleries and exhibitions to enjoy, not to mention festivals and free heritage tours. While away a few hours in the beautifully ornate People's Park – but be warned, it gets busy during the Farmer's Market on Sunday!

Step one street in from the seafront and enjoy the hustle and bustle of a town centre where high street fashion sits comfortably alongside unique boutiques and artisan shops. Wander into one and you're as likely to leave with a first edition as you are a vintage dress or French pastry.

Stop for a bite to eat and savour the sizzle of fresh fish in a seaside restaurant, or enjoy the craic and a traditional music session in one of the many traditional pubs. Located in the UNESCO-designated Dublin Bay Biosphere, Dún Laoghaire is a coastal gem where the mountains meet the sea.

The Harbour

Dún Laoghaire Harbour largely owes its existence to shipbroker Richard Toutcher. It was Toutcher who developed the concept, rallied public and political opinion behind it, and provided, at great personal expense, most of the granite for the project. Work commenced in 1817 and, when completed in 1842, it was the biggest man-made harbour in Western Europe.

East Pier

The 1.3km East Pier is incredibly popular with walkers. On it you will find a monument commemorating the heroic Captain Boyd and a weather station. At the end of the pier is the Battery Lighthouse where you can buy refreshments and enjoy spectacular views across the bay.
