Foreword 2017

Dún Laoghaire-Rathdown is a smart, open, accessible County with an enviable geographic location, providing the very best in public services, civic engagement and public realm projects.

It is steeped in culture and maritime heritage, combining breath-taking coastlines with attractive villages and towns, delivering memorable experiences for visitors and is an ecosystem providing opportunities for entrepreneurs, investors and businesses; using smart technologies to improve liveability, creating cross sector partnerships across agencies and enterprises to develop Dún Laoghaire as a key location for digital start-ups and scale-ups.

The County is an inclusive one, where diversity is celebrated and where a proactive social inclusion ethos is embedded in our decision and policy-making processes.

Our Annual Report outlines our achievements in delivering key public services during the past year. As well as our strong housing programme delivery, we have progressed key elements in our capital programme to encourage economic development and make the County a vibrant place in which to do business. We have simultaneously undertaken a series of public realm projects to enhance the citizen's experience and well-being. Additionally, the report describes our major focus on the on-going enhancement of our business and commercial infrastructure.

Highlights for the year include:

- Progressing delivery of our ambitious infrastructural development project in the Cherrywood Strategic Development Zone area.
- Exceeding our housing targets for the period 2015-2017 by 37% per cent, delivering a total of 933 homes, under the first phase of the Government's Housing Strategy.
- Bringing new life to the heritage village of Monkstown with a transformative public realm initiative.
- Celebrating the 40th birthday of the opening of Shanganagh Park House with Uachtarán na hÉireann, Michael D Higgins.
- Awarding Freedom of Entry to the County to the Irish Naval Service, accepted by the Captain and Crew of the LÉ Eithne, for their work in Operation Pontus.
- Hosting the prestigious Women's Rugby World Cup in August.
- Receiving national acclaim for Our Mountains to Sea dlr Book Festival, one of the foremost book festivals in the Country, led by dlr Libraries and dlr Arts Office;
- Remembering our maritime heritage in the bicentennial celebration at Dún Laoghaire Harbour with the Dún Laoghaire Harbour Company.
- Embarking on the delivery of our 21st century new Civic Hub, enhancing our interface with our customers, and optimising our communications channels for our citizens.

- Initiating A Tourism Destination for All: Creating an Accessible Tourism Destination where Dún Laoghaire-Rathdown County Council and tourism business providers will work together to increase access for all and tourist footfall in the town.
- Leading the cultural agenda in a record-breaking Culture Programme across the Library branch network; totalling 2,384 events in 2017 and attracting some 60,161 attendees, with 802 of those events and 38,782 attendees in dlr Lexicon's state of the art surroundings.

Awards:

- Awarded the Best Sustainable Building Project at the Irish Architecture Awards 2017 for Phase 2 of the Rochestown House housing development.
- Awarded Best Civil Engineering Project at the Council and Community Awards for the Leopardstown Roundabout Interchange, a major multi-mode transportation junction, adjacent to the commercially vital Sandyford Business District.
- Awarded a national Business 2 Arts award for supporting the IADT's National Film School project Young Women in Film and TV - a gender-parity initiative that seeks to address the issue of under-representation of women in key creative positions in the film and TV industry.
- Awarded philanthropic seed funding from Music Generation, to develop a 3-year music- education partnership programme for the County.

The engagement and spirit of co-operation between the Elected Members and the Council staff throughout the year has been a key driver in our successes in 2017.

A total of 25 Transition Year students from 8 secondary schools in the County participated in the programme. The success and value of the STEM camp was recognised when dlr Libraries were successful in securing funding from Science Foundation Ireland towards running the 2018 camp which will help develop this further.

A Global Designathon was held in November for the second year running with 32 Irish children linking in with 18 other cities worldwide, in particular Montreal which is partnered with the Lexicon. A total of 500 children took part and the theme this year was water. Children designed prototypes to help solve major problems they considered most critical to society.

During Science Week, hundreds of children from local schools took part in hugely successful and popular events including 'light learning' workshops and 'the science of bubbles'. Digital

literacy was a focus in 2017 with technological classes for adults, in partnership with Vodafone and Createschool. UCD's All Aboard 2017 Digital Project partnered to give a demonstration and talk on website sources for historical maps.

Following consideration of the Budget each year, the elected Members determine the Annual Rate on Valuation (ARV) to be levied for the following year. The ARV (Annual Rate on Valuation) for 2017 was 0.1648, a 1.5% increase on the 2016 ARV which was necessary to enable the Council achieve a balanced budget. The effect of the increase was offset by the introduction in 2017 of a new business support grant scheme with 72% of Ratepayers eligible to avail of the scheme once they met the specified criteria. Ratepayers who qualified for the grant saw a real

In the seven year period 2010-2016 the Council reduced its ARV in four of those years while in the other three years the rate remained unaltered. Environmental Waste Charges

While the Council withdrew from the provision of a direct waste collection service from August 2010 it continues to pursue collection of outstanding arrears and in 2017 €103,000 was collected. As part of its debt collection processes the Council only issues certificates required by Solicitors in the property conveyancing process where all charges owing to the Council are fully discharged

Non-Principal Private Residence Charge (NPPR)

The Local Government (Charges) Act 2009 introduced a €200 charge for Non-Principal Private Residences. The charge was self-assessed and owners were required to register their property and pay the charge. The charge was abolished effective from the 1/1/2014 by virtue of Section 73 of the LG Reform Act 2014 & the provisions of the LG Reform Act 2014 (Commencement of Certain Provisions) Order 2014. Section 74 of the Act set 31st of August 2014 as the latest date for persons/bodies who may have a liability for the charge to contact their local authority to pay the charge or enter into an agreement for payment in order to minimise the effect of late payment fees. The amount collected in 2017 in respect of the charge, including late payment fees, was €0.92m.

Local Property Tax

The Local Property Tax (LPT) is an annual self-assessed tax charged on the market value of residential properties effective from 1st July 2013 and is administered by the Revenue Commissioners. A half-year payment was due in 2013, with a full-year payment due from 2014 onwards.

Under Section 20 of the Finance (Local Property Tax) Act 2012, as amended by Section 5 of the Finance (Local Property Tax) (Amendment) Act 2013, a Local Authority may, as a reserved function, decide to vary the basic rate of the Local Property Tax within its administrative area to a maximum of plus or minus 15% of the basic rate. At the meeting of the Dún Laoghaire-Rathdown County Council held on 11th September 2017 Members agreed to vary the basic rate of the local property tax within the County by minus 15%. As provided for in Article 8 of the Local Property Tax (Local Adjustment Factor) Regulations 2014 the varied rate of Local Property Tax applies for a period of one year from the next local property tax liability date i.e. from 1/11/2017 to 31/10/2018 after which time the rate of LPT reverts back to the initial (basic) rate as defined in the 2012 Act unless a further decision has been made by the Council, as a reserved function, in the following year to retain the variation or apply an alternative variation, which would then be effective from the next liability date i.e. from 1/11/2018 to 31/10/2019.

Compliance rates in respect of the Local Property Tax in this County are among the highest in the State.

Business Improvement District Schemes

The Council at its meeting held on the 10th March 2014 approved implementation of a Business Improvement District (BID) Scheme within the Dún Laoghaire Town Area which will operate for a period of five years from 1st April 2014.

At the meeting of the Council held on the 14th November 2016 Members approved implementation of a further B.I.D Scheme within the County which is for the Sandyford Business District Area and that scheme will operate for a five year period from the 1st January 2017.

Both schemes will be financed in the main from B.I.D contribution levies payable by businesses within the B.I.D Scheme areas.

In accordance with the provisions of the Local Government (Business Improvement Districts) Act 2006 the Council calculates and collects the B.I.D levy payable by businesses within the B.I.D Scheme areas and forwards the income to the B.I.D Companies in accordance with the provisions of the legislation as it constitutes B.I.D Company income.

Financial Management

Financial management reporting in the Council is robust and thorough. A rigorous system of monthly financial monitoring ensures that any significant budget variances are identified at an early stage and appropriate actions are taken to minimize any possible adverse financial impacts. These controls include regular financial reviews, monthly and quarterly financial reports which indicate financial performance measured against budgets on both expenditure and income and variance analysis evaluation.

Quarterly Financial Reports to Department of Housing, Planning & Local Government

The initial call for proposals from local authorities was announced in August 2016 and dlr made submission in relation to 5 projects in October 2016.

The Department of Housing, Planning & Local Government (DHP&LG) announced on 28th March 2017 that dlr were successful in their LIHAF application in respect of 4 projects for which 75% grant funding would be provided with dlr matching the fund with 25% of its own funding. Participants achieve recognition for their environmental achievements through the award of an €coMerit certification which is reviewed annually to ensure continuous environmental improvement takes place.

To date, 153 companies have received support to become €coMerit certified. Certificate holders have achieved average annual savings in their energy, water and waste costs of €7,961 based only on their year 1 improvement. Thereafter €coMerit Certificate holders have posted average year on year reductions in carbon emissions of 9%. Since the launch of the SEAI "Better Energy Communities" grant scheme in 2012 the €coMerit Programme has made grant applications each year on behalf of Certificate holders. Planning & Human Resources

Planning

Planning is responsible for implementing the provisions of the Planning & Development Act 2000 (as amended), the Planning & Development Regulations 2001 (as amended) and Building Control legislation.

This involves reviewing the existing County Development Plan and the making of a new Development Plan every six years, making and implementing Local Area Plans, consideration of applications for planning permission, the control of on-going development, active land management, the enforcement of planning legislation, and providing advice on planning related matters together with enforcement of the Building Control legislation.

Forward Planning

County Development Plan

The Development Plan consists of a written statement and a set of 14 maps. The written statement sets out the general policy of the Council for the development of the County. It includes detailed standards for the control of development and specific objectives for different areas.

The maps illustrate the land use zoning provisions of the Plan, the road programmes and other objectives such as the preservation of trees and structures of archaeological interest. The Plan seeks to provide for the future well-being of the residents of the County by facilitating the growth of employment by ensuring an adequate supply of zoned lands for anticipated needs, by protecting the quality of the environment and by ensuring the provision of necessary infrastructure.

Largely on foot of continuing refinements and changes to European and National legislation and Directives, the 2016-2022 Development Plan contains 'new' material not previously included in earlier such Plans. A detailed Strategic Flood Risk Assessment for the entire County is now incorporated into the Plan. Other new or expanded material includes a comprehensive Green Infrastructure Strategy, Dún Laoghaire Urban Framework Plan, Climate Change Mitigation and Adaptation measures, Green Roofs Guidance and an increased focus on the Tourism and Recreation potential of Dún Laoghaire-Rathdown.

Vacant Sites Register

The introduction of the Vacant Sites Register in 2017 brings a new focus on long-standing unused and 'dormant' sites in towns and villages across the County. The proposed fiscal penalties incorporated in the Vacant Sites legislation are intended to 'unlock' these vacant and dormant land parcels and bring them back into productive use.

In 2017 the Council sent 'Notification' letters to the purported owner(s) of a first tranche of sites, submissions received back from the owners were assessed and further notices were being prepared for issue.
