

Free Drinking Water Dispenser Competition

Refill Ireland and Dun Laoghaire Rathdown County Council (DLRCC)

Why Enter?

Refill Ireland and DLRCC are partnering to introduce a waste prevention and health promotion initiative with the support of the local business community. Our objective involves increasing foot traffic to local businesses, reducing single use plastic bottle litter on local streets and waterways and providing free access to filtered tap water refills to keep shoppers hydrated.

The winning business will receive a FREE mains line water dispenser, including full fitting and the service charge paid for the first year, at a total prize value of €1050.

There are now over 500 locations across the country in the Refill Ireland network from which people can refill their reusable water bottles including a network of more than 400 private businesses that have pledged to provide free tap water on request. This initiative is the first of its type in Ireland and shall be monitored as a pilot project in this area.

How to enter

Businesses simply state their wish to enter the competition by emailing us at info@refill.ie

Water Dispenser

The winner will receive a Mains-Line Water Dispenser - One of the most versatile and top choices for the corporate sector. It contains NSF approved filtration (.5 micron) and continuous cold flows during high volume use and has a large dispense area for bottle refills.

Competition Raffle

Three entries will be selected at random from all entries received to the info@refill.ie email address by the 12th October 2018. Each of these three entries will receive a visit from Refill Ireland to assess their suitability for a public water dispenser. The winner will be chosen based on the criteria of location, convenience, ease of access to the main line water supply on their premise, and access to an electric socket.

Competition Terms & Conditions

The winner organisation agrees to:

Join the Refill.ie TAP MAP network of locations around Ireland where members of the public can avail of free no quibble water refills for their reusable bottles and display the Refill.ie logo in store.

Sign a commitment to stay in the network for 12 months with 1 months' notice to be provided to Refill Ireland and/or DLRCC to leave the network.

Maintain the unit as per its designated service intervals (paid for the first year). A maintenance cost of c.€130/year will apply after the first year, with maintenance to be carried out by the water dispenser supplier which includes two filter changes per year.

Allow and maintain access to the dispenser at all reasonable times during normal opening hours. Premises must have access to a mains water feed and an electric socket nearby.

Refill Ireland / DLRCC reserve the right to remove the water dispenser at 1 months' notice for violation of any rules.
