

# What Lies Beneath...

It's your turn to be an archaeologist! Can you work out the following questions using the stratigraphy drawing below?

Name: \_\_\_\_\_

1. What period is the skeleton from?

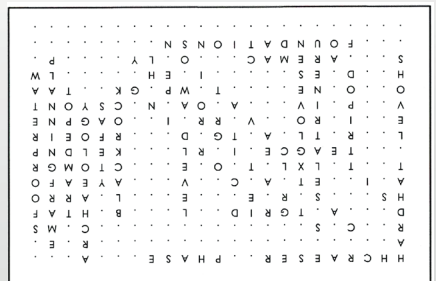

2. Can you find the willow pattern plate?

3. What is different between a medieval wall and a modern wall?

4. What were Viking houses made of?

The concept of stratigraphy is that the oldest layer is at the bottom and the most recent layer is on top

- Word search answers.
1. Skeleton dates to the early medieval period, often referred to as Early Christian Ireland which spans the 5th to 8th centuries!
  2. Look in the latrine. The residents of Dove house discarded their broken crockery and glass in the disused outside toilet!
  3. The medieval wall can often have larger stones and can be wider.
  4. Viking houses were made of wooden post and wattle and daub (branches woven together and covered with mud).

# What Lies Beneath...

Can you dig out the hidden archaeological words and items in this word search?
