Dún Laoghaire-Rathdown County Council has approved an application from GMC Utilities that proposes the temporary closure of Nutgrove Park, Roebuck from its junction with Leinster Lawn to its junction with Clonskeagh Road from **Wednesday, 10th July 2024** to **Friday, 19th July 2024**.

A Traffic Management Plan will be in operation and pedestrian and local access will be maintained at all times. Diversion routes will be clearly signposted.

The purpose of the closure is for the installation of a new joint box on the existing 110kv ESB line going through Nutgrove Park.

SECTION 75 OF THE ROADS ACT, 1993 TEMPORARY CLOSURE OF MAIN STREET, DUNDRUM

Dún Laoghaire Rathdown County Council has approved an order to temporarily close Main Street, Dundrum between its junction with Kilmacud Road Upper to just south of the entrance to the Village Centre Carpark. The closure is to take place from 13:00 hours to 18:00 hours on **Sunday, 30th June 2024**.

The purpose of the closure is to facilitate the Dundrum Arts & Cultural Festival.

A Traffic Management Plan will be in place and all diversions will be signposted. Pedestrian and local access will be maintained at all times.

SECTION 75 OF THE ROADS ACT, 1993 TEMPORARY CLOSURE OF N11 BETWEEN ITS JUNCTIONS WITH KILL LANE (FOXROCK CHURCH) TO ON RAMP R118 CHERRYWOOD INTERCHANGE SOUTHBOUND AND NORTHBOUND

Dún Laoghaire-Rathdown County Council has approved an application from Roadstone, Fortunestown, Belgard, Tallaght, Dublin 24 to temporarily close part of the N11 Stillorgan Road between its junction with Kill Lane (Foxrock Church) to on ramp R118 Cherrywood Interchange junction southbound and northbound from **Monday, 22nd January 2024** to **Sunday, 30th June 2024** between 19:30 hours to 05:00 hours each day.

The start time of 19:30hrs is required as it allows the Contractor sufficient time to carry out the section of the works that creates the most noise i.e. the planing of the existing road surface.

It is a requirement that this section of the works is completed by 23:00hrs, therefore commencing the works at a time past 19:30hrs would serve to severely limit production and have a detrimental effect of the programme of the overall works.

An earlier time than 19:30hrs would assist with the programme, but the effect on traffic movements would not be manageable. Therefore a 19:30hrs start time provides the best approach in balancing both traffic movements and ensuring progress of the works.

A Traffic Management Plan will be in operation and pedestrian, local access and access for bus and emergency services will be maintained at all times. Diversion routes will be clearly signposted.

The purpose of the closure is to allow for realignment of the traffic lanes.
