

DLR Local Economic & Community Plan – Annual Progress Report 2017 for Community Objectives

Dún Laoghaire-Rathdown Local Economic and Community Plan, 2017 Annual Report

Background

Following legislative changes in 2014 related to the local government strategy 'Putting People First', the remit of local authorities includes a renewed and clearer role in economic and community development. In this regard, each Local Authority is required to develop and make a Local Economic and Community Plan which is a statutory plan for the area.

Dún Laoghaire –Rathdown's Local Economic and Community plan 2016 – 2021 was developed throughout 2015 and adopted by the County Council on the 14th December 2015.

The LECP is structured around 8 high level goals, 21 thematic objectives and 156 individual actions which are aimed at supporting community development, enhancing quality of life and driving economic development for the County.

Monitoring of the progress and implementation of the Community Objectives and relevant shared Community and Economic Development Objectives is undertaken by the Local Community and Development Committee during the year with reports, presentations and updates to the LCDC which includes this Annual Report.

This Report tracks overall progress during 2017 with implementation of the LECP Objectives that come under the remit of the LCDC for oversight. It also highlights issues which may require further consideration or may need review.

The Economic Development and Enterprise Strategic Policy Committee monitor progress and implementation of the economic development and enterprise objectives and related shared economic and community objectives for which the SPC is responsible for.

Progress on the LECP is dependent on the County Council and Lead partners supporting implementation of key objectives for which the LCDC has oversight. These include shared Community Objectives numbers 7 to 14 as well as Community Objectives numbers 15 to 21 inclusive. These are the community and shared community and economic development objectives.

Partners who have directly supported implementation and in many cases, delivery of key objectives during the past 2 years include; all departments of Dún Laoghaire Rathdown County Council, Southside Partnership DLR, An Garda Síochána, County Childcare Committee, Health Service Executive, Crosscare, Children's and Young People's Services Committee, Tusla, Comhairle Na nÓg, DLR Volunteer Centre, Drugs and Alcohol Task Force, DSP, PPN, IADT and DDETB. The on-going support and engagement of partners is much appreciated and is vital in helping the LCDC in achieving the LECP goals and objectives which were developed and agreed by the LCDC in 2015.

There have now been 2 full years of implementation since the adoption of the Strategy so overall good progress is being made. It is timely now for the LCDC to review overall progress for 2017 and to consider areas for potential focus or greater collaboration going forward.

The following report clarifies key achievements made on implementation during 2017 and highlights some of the key issues to be considered by LCDC.

Actions are wide and varied in terms of scope, definition, responsibility and level of stakeholder engagement. An owner, lead departments, support departments, and timelines have been assigned to each action. Action owners were requested to provide updated information on their actions for 2017.

The current status of each action has been assessed and highlighted using a traffic-light system. This system assists with reporting and monitoring progress and in identifying actions that require attention or review.

Green	• Action on schedule / completed
Yellow	• Action is on schedule / but more work to do
Red	• Action needs further development / Review

An Advisory Implementation Steering Group was established to support and advise on the general implementation of the LECF. This group is made up of members of both the DLR Local Community Development Committee and the Economic Development Strategic Policy Committee. It met twice during 2017 to review progress and support the implementation process.

During 2017, a new online reporting system 'Viclarity' has been developed to aid monitoring and tracking progress and reporting of LECF. This enables each action owner to update the information once and enables reports to be generated regarding specific objectives or overall. This will aid with collection of data, analysis and reporting to supporting implementation. The new system is being rolled out and was piloted for this report.

Overview of DLR LECP actions by Community Objectives

The pie charts below give the breakdown of progress being made on Community and some shared Economic and Community Actions under 15 of the LECP objectives. The Plan is in place to 2021, and to date some 37% of Actions have been completed, with a mix of on-going activities and other areas where more work is needed or in some cases, there may be Actions that require further consideration or review, and these will be raised under each of the relevant objective in the following sections of the report.

Overview of Progress with Objective 21:

Progress is on-going with activity progressing well under the objective to develop and encourage community spirit, public participation and volunteering within the county.

Action for Consideration/ Progression for 2018 –

21.2 Explore the potential of a new web based community maps service on community services and activities in dlr

21.6 Develop a Community Garden programme

21.7 investigate what groups are not engaged in the community and promote actions to increase their participation

Conclusion:

Overall good progress has been made in 2017 in relation to the implementation of the Local Economic and Community Plan (LECP), and achievement of objectives. It would be important to acknowledge the considerable contributions made by key partner organisations and departments of DLRCC who are leading and supporting the implementation of actions. In particular, the action owners play a key role in driving implementation and progress in relation to their actions and providing updates, which is appreciated. The successful implementation of the LECP is dependent on support and collaborative actions from partners. It is important to acknowledge the commitment and participation of all to support with implementing the LECP and helping to achieve the overall goals.

Progress has been made under each of the objectives, and during 2017, new areas of focus and progress included actions related to Health and Wellbeing, and Children and Young People with the establishment of a new Committee to support work in this area and commence needs analysis for dlr.

Under each objective, there are actions which have been highlighted for consideration, and in some cases these now require review or further consideration to determine whether the actions are relevant and can be progressed during 2018. It will also be important to consider actions where partners can collaborate to support with delivering the overall objective. The LCDC will be asked to consider progress to date and areas for focus during 2018 at the forthcoming meeting.
